Subject/Description of Revision

Income Exclusions

The Consolidated Appropriations Act, 2005; Public Law 108-447, contains a provision which excludes from consideration as income in the Food Stamp Program additional pay received by military personnel as a result of deployment to a combat zone. The additional earnings will be excluded for the duration of the member's deployment if the additional pay is the immediate result of deployment to or while serving in a combat zone, and this additional pay was not received immediately prior to serving in the combat zone.

This policy change is effective upon receipt. For households already in certification this change in policy to exclude these additional earnings (combat pay) must be applied in conjunction with processing of any reported change, SR, or next recertification, whichever comes earlier.
